Thank you Billy Goodman for producing / engineering / recording / releasing / creating artwork for this record, for caring enough about this material to call my lazy ass out over and over again so shit actually got done. I'm horrible at that... and you're obviously not.

Thank you to the ideas and people these songs are about: Living your life to its fullest, Erin Hunt, Rachel Coppola, Billy Goodman, Sarah Coppen, D. S. Yancey and my mother.

Thank you Paul Fairbrother for taking pictures of my frog for the cover art.

Also thank you to my special lady friend Jenny, for being so patient while I took up our "dungeon time" to make this record. I did not forget our safeword: "REPUBLICAN!"

All songs written and performed by Christopher Thomas Warmuth.
